CONTEST OF
PHOTOGRAPHY

RULES

Students, amateurs or professional photographers.

We accept participation of groups but it is necessary to choose a representative to complete the form and clarify how the group is integrated in the text of the photographs.

People who have been selected or winners in previous versions can participate.

Institutions or companies, as well as members of the convening institution (Escuela Nacional Sindical - Colombia) cannot participate.

THEME

The theme of the photographs should focus on human beings (regardless of age, sex, or race) carrying out some form of work or occupation. Additionally, pictures could show the human presence through objects or materials; but the jury will decide on the appropriateness of these concepts.

In essence, our proposal seeks to focus the gaze of the photographers towards humans in their role as fundamental protagonist of the productive process.

In this edition, we especially invite photographers to emphasize the labor consequences of the pandemic in Latin America, which includes aspects such as confinement, reinvention of work, telework, underemployment, informality, precariousness, immigrants and unemployment.

There are three categories for Latin-America and a Special Category for Colombia on Rural Labor.
